

Compliance with the sustainability criteria by the Producer¹	
Sustainability certification system and GHG Emission (identification)	
Type of Certified operation (identification)	
Certified materials for on-site certified handling	
a) Raw Materials (mark with X)	
• Virgin vegetable oils	
• Biomass	
• Animal fat (Cat. I)	
• Animal fat (Cat. II)	
• Animal fat (Cat. III)	
• Animal manure	
• Olive pomasse (after oil extraction of bagasse)	
• Non-alcoholic grape marc	
• Glycerin (unrefined)	
• Cereal straws	
• Lignocellulosic waste materials	
• Forestry Residues	
• Rice straws	
• Nut shells	
• Fruit and other vegetable products unfit for consumption	
• Carob pulp	
• Fleshy fruit pulp	
• Sorelho (from the dairy industry)	
• Brewing and distilling dregs (from the beer production industry)	

¹ To complete and to submit together with a copy of the Certificate of Sustainability.

• Used Cooking Oils	
• Soapstocks	
• Olein	
• Free Fatty Acids	
• Starch sludges	
• Sewage sludge	
• Others	
b) Type of Biofuel produced (mark with X)	
• FAME²	
• HVO	
• Bio ETBE	
• Bio etanol	
• Others	

² Must comply with the specifications set up by NP 14214:2012 + A:12014.
